I had intended sending the bearer previous to receiving your letter and after talking with her the Lady was called with it, decided that it would be best to send her. She comes highly recommended and the party who sent her here says that her boy is smarter than any of his old boy that he ever seen. If send the little girl with her. Son ~~[illegible]~~ per mo which is the arrangement that is agreed upon, and he wd not can earn his board, if we pay their fare which will be included in their order.
