Williamstown, W. Va., ... 189

for the colt, we thought that from advice guide adopt and offered $500 for it. If the colt is promising this fall we might not take out of the way, and would be glad to have you take it and develope it. Or should any of your friends think enough of it to buy it we would rather prefer that it should be left with you. We would hardly like to part with Mozelle although we confess that we think well of both your mare and colt. The colt will be quite a large bound horse and has fine trotting action. By the way has Dalzell upon any progress in developing speed? He ought to begin to show up a little by this time. Expect Nutguard to Ky. this fall to have him handled a little.

Can you a good man that you can send with Mozelle? Mr. Castel is very busy now with his breeding &c. Suppose we can send him a little later,
