leg or I could not have bought her
think over her breeding now if you
think she ought to bring a colt by
Happy Russell. Then advise me
whether to breed this fall or wait for
the Spring. And state if his terms will
be the same next season. It would
suit me very well to breed her this fall
as I have no use for her. The colt would
do to wean now any time. Are mares
as apt to catch in the fall as in Spring?
I must try to get my mare to some
good stock & I am stuck on Happy
Russell & I'd like you to manage to
get me a colt as cheap as possible
as I am limited in means.
My friends Capt Brown Cape Charles &
H. L. Upshur Castville both failed to
get colts by him & we are anxious
to get one down here. I failed to state
age of mare. She is 9 years.
What is best route from Cape Charles, I'd
prefer the steam boat to the cars.
Please let me hear from you at once
And oblige your truly

You may remember me
