from the rest of the season.
We were nearly drowned Monday
night & Tuesday. Wednesday
our tent got on fire & befor we
could get it put out all the roof
burned off. Nearly every thing I
have is more or less burnt. I
saved my down comfort one blanket
& my pillow & sheets off of my
bed. My cot got burnt pretty badly.
I dont see how Uncle Andrews
rifle escaped for it was right
in the middle of the fire
But it was scarcely scorched.
I have been sewing up clothes
all the afternoon to-wear.
My blue shirts caught it most
they look like they had been
shot at & hit. I patched the
one I have on in five places
one of them was as large as
my hand.
