Dear Mother:—
I have not been in bed since yesterday morning so you can imagine how tired I feel. We finished our field work out in the Territory yesterday morning in time for twelve o'clock dinner. While we were eating a car was tacked on on the ending near our tents. By half past two we had struck camp packed our duds & loaded the car. We then drove ~~to~~ nine miles to Wilburton & took the night train down here. We left there at 1030 P.M. & got here at about half past five this morning. The co. would not stand for sleeper tickets so we had to sit up all night. I have been at work all day down at Mr. Nichols's office on an estimate. So I am nearly worn out. I expect to be here several days.

Any mail sent to this address will reach me even if I have left
