Dear Brother:—

Your letter of the 15th arrived yesterday. I do hope you do not have the grippe again this winter. Every body I have heard from back east seems to have had it. We have had just an awful damp spell but no one has gotten sick yet. Our cook got the first of the week & the Flunky has been filling his place. I think he is something of an improvement. We find boys the best of every thing that comes in camp so we would not be in very bad shape if we did not have a cook at all.

We had lima beans & spring peas today that tasted almost as good as fresh ones. I have not a thing to tell that would be interesting so I will say good night. Please give my love to Sister & Kid

Sincerly,
