Dear Brother:—

I have just finished fixing up my todays notes & if I can only keep my eyes open I will write. You know we have to put all the notes we get during the day in an office every night.

I went over to the station tonight in hopes Jack would come. But he did not show up.

My boil has healed up very nicely I only hope I do not have any more.

I am taking some medison for my blood & I only hope it strengthens it up
