Exclusive of the above sum of £118952.2.3 Sterling extracted from the several Accounts Currt. remitted for Revenue between the 29 Septr. 1761 & the 4th. September 1771 the day Lord Baltimore died, there were payments made on his Account in Maryland to a very large Amount during that period as said Accounts will Appear, there was also very large Sums retained by way of Commission to the Agent and Farmers of Quit Rents never brought into the Account Current All of which Constituted part of the Revenue as proprietor of sd. province.

The inconsistency in the dates of the Remittances, during the late Colonel Lloyds Agency was owing to his irregular method of doing Business, and probably are charged agreeably to Advices of the Receipt thereof by the late Henry Cecilius Calvert Esq.r. Satisfactory Vouchers however were then produced to the Gentlemen who passed his Accounts of the Remittances having been made for the sums charged.

Extracted from the Account Current July 21st. 1786
