H.S. Frolicsome June 17th 1814 125

Sir. I have received your note of this morning and observe what you say as to cordial Co-operation. I have received that co-operation until you came into camp. I have done every thing in my power to relieve your men (who have been much neglected) by furnishing Rations from the flotilla, and even out of my private purse. ~~I did not send off prisoners~~ to government without giving notice to your Regt., but if you are not with them during the day, it is not my fault, the Major. Dogt. to know of it and sent letters. it was no secret, for I remained in your Camp, as I have done every day watching the movements of the enemy & from whence I yesterday directed an attack upon them, but I had not the pleasure of seeing you during the day.
