Extract at Halifax
3rd December 1814.

Sir,

R. N. Yard

Having considered the nature of the floating Battery to be moved by the effect of Steam, which the Enemy has constructed at New York to oppose his Majesty's Ships in Long Island Sound, of which I did myself the honor to send you a description in my letter No. 11 for the information of the Lords Commissioners of the Admiralty, it has appeared that the best mode of attacking her will be by endeavouring to set her on fire by hot Shot, and Carcases; I have therefore applied to Rear Admiral Griffith and
