Resolved, that the Home Agent be requested to communicate to the other Colonization Societies in the U.S. the time of sailing of the fall Expedition

Mr Francis H. Smith chairman of the committee on Mr Holmes' acct's presented the following report

Baltimore Sept. 19/1837

The Committee to whom was referred the accounts of Oliver Holmes, report

That owing to the imperfect mode in which the accounts have been

kept it is impossible to give such an examination of the same as they would wish, a great part being absolutely unintelligible. By this remark the Committee do not mean to cast any censure upon Mr Holmes, but to the system of Book Keeping which seems to have been adopted in Africa, and which if pursued will forever involve the finances of the Society in confusion.

The Balance claimed by Mr Holmes amounts to $592. which the Committee have no doubt is correct — ex officio recommend that it be paid.
