The Commissioners of the State funds we understand have announced their intentions of valuing on the State for $15.000 for the fiscal year – of this amt one half has already been drawn and by the demands of the Society. –

Leaving applicable to the wants of the Society	7.500.00
And still leaving a deficiency of – for the current year of 1839	$11.409.25

Your Committee regret to state, that this is any thing but a flattering state of the finances of the Society – and having a due regard to the maintainance of a Sound Credit and the ability of the Society to meet any further demands – they have unitedly come to the conclusion, that however desirable it may be to continue our regular spring & fall Expeditions – It would be imprudent and inexpedient to attempt one this Spring.

With judicious management the Society has heretofore sent two expeditions annually to the Colony, to accomplish this however it has been necessary from time to time to anticipate (by means of the Credit of the Society and promissory notes)
