Church Hill Md
Apl. 14. 1833

Dear Sir

At the time of my last communication it was my intention to remain in the two Counties of Nacester & Somerset as long as it might take me to visit the different parts of each County to establish auxiliary Colonization Societies for Liberia. I should have adhered to this purpose but for the great difficulty of securing a ready conveyance from place to place. To obviate this difficulty I determined to pop up the Peninsula with as much speed as possible to this place where I felt certain of securing a horse & sulky for such time as I might need them. I should ere this have been back to Nacester, but for a most violent inflammation in my upper right Jaw, brought on by exposure to the cold, immediately after the extraction of two of my new teeth. —

I am to day able to set up & shall be able, if the weather is fair, start for Caroline County & from thence hop on to
