Dear Sir

I wrote you some time since in reply to your's of the 29th May last. The present serves to request that you will inform me when the Society intend dispatching another Vessel for Africa with such other particulars as you may deem proper for the information of my black people, all of wh. I mean to lay before them, they seem wavering on the subject, & I want them to come to a point for my own government. I mean the establishment at Cape Palemas

Respectfully your's

C. Binnie
