of Kent, Queen Anns & Talbot. The inclosed statement will shew the result of my operations in part. I say in part, because it will require further time to realize the fruits of my labours in connection with a series of auxiliary agencies which I made among the ministers of the Gospel, several of whom promptly agreed to carry the question of Emigration to the different parts of their respective circuits, & also the Colonization Journal with a view to obtain subscribers to it. —

David Wilson — 40 years of age
Jane Wilson his wife

Arthur Wilson 20
Rachel Wilson 11

From the information I was enabled to collect while on the Shore I am led confidently to expect that the fall expedition will number at least 100 Emigrants — Should no unwelcome tidings from Africa reach this Country before December there is but little doubt of my being more successful than at any period since the sailing of the Lafayette — The disastrous results of that expedition, as it immediately
