

immediate use - I am glad to hear
that your works for slaughtering of beef
are in readiness - 20 or 30 strong Iron
Hooks will be necessary - & a Mench
to cut upon - The first change to
cold weather I will send down a
Drove of 20 Bullocks - I am not
able to give an answer to Mr. Daws
offer - until I hear from the Man
I have applied to - Have you any
Hay on hand - the cattle will
want a little if kept more than
a Day - I will send the Iron Wailer
down this week - & when the Smith &
Lime are ready I will ride down -
- I hope this wind will bring the
Horns up -
yours respectfully
A. Maynard
