Baltimore 21 Decem 1835

Samuel Ford McGill
Monrovia

I have Just receiv'd your long and well written letter and as the vessel that is to take this is to sail to day I shal notice that part of it only which relates to your proposition to obtain a Medical Education.

There is a young mens Colonization Society established here, the Pres't and some of the members, with Doct'r Bond, are to meet at my house this evening to take the subject into consideration, I think they will make an arrangement to accomplish your object, but I can say nothing certain now, it is the intention to propose to the young mens Society to take charge of your education, I do not expect to be abel to give you the result by this conveyance, but a vessel is to sail from Norfolk shortly with emegrants when you will hear from me or some other person on the subject.
