

D. Sir

Belvoir March 14th - 1810 -

I have returned this evening from
Washington - I found the Secretary of the Navy
extremely civil and obliging as to our business
& I should have settled our acct. completely & brought
the cash - had not the certificate from Mr
Middleton been deficient in form - it mentioned
only that he had inspected some keel Boats -
when it ought to have mentioned the exact
number of keels of each kind - I now enclose
the form of one that I think will answer -
& must beg that you will write one like
it & enclose it to Mr. Middleton - requesting
him to sign it - & send it on to you - as soon
as this certificate is got & sent on to the
Navy Department - our cash will be sent on

I received the money from Mr. Turner -
I saw Mr. Eaton - but he would not do any
thing - of this I will inform you when we
meet - I have reason to believe that Mr.
J. Randall will be appointed to receive the
keel Boats from us -

Y^{rs} respectfully
A. Maynard's
