whose minds appeared much impressed with the importance of the subject and having granted each of them our Fourth Annual Report and the Colonization Journal I left them to examine at their leisure the evidences in favour of the enterprise: I am pleased to assure you that my personal visits and conversation with the Ministers of the gospel is doing far more than Conference resolutions. In abingdon the serious persons are deeply interested; but I am sorry to add that whisky has far more disciples there than the gospel of the blessed Saviour.
My hopes of having done good in Abingdon are cheering and I look for favourable results.

On Wednesday the 4th May I visited the region of Country between the Patapsco and Severn and made arrangements for several Meetings to be held at Whitsuntide at Magotty and white Marsh Meeting houses: and my efforts extend to the organization of a Society
Mr Charles Waters an Old and respectable citizen said I might probably obtain an audience of 500 Coloured persons: and that a deep interest was felt in the Colonization Cause. My efforts will be used to the utmost to obtain a few emigrants for the spring Expedition from Monrovia may which I go tomorrow morning should health permit.

With great respect
I remain very truly
