of the Maryland Colony. I wish for a statement from such a source, as much or more for the information of the White population than for the blacks. - I look to the success & popularity of Colonization in Africa as the sheet anchor of the Middle or border States. And perhaps in the course of time it may greatly relieve some of the Southwestern States, whose borders are likely to be long infested by the Black & the tawny; - the African, & Indian races.

Please to present my respects to Mrs McKenny, and other members of your family.

Yours respectfully

Geo D Parnham
