Kent Island February 13th 1837

Dear Brother

I rec. your letter but really have been so unwell I have not been able to write I have been confined ever since I returned Home from Pattimore I was very sick while I was there or else I should have called at your House, on my return I was attacked with a violent Rheumatism which has taken me ever since but I begin to feel much better —

I have not seen Mr Kelly

untile a few days past he was down here, he says the prospect is very bad for making up a Company on the Island

I think perhaps if you were to pay us a another visit in the Spring and give them another talk on the subject it might have a good effect and allow to have a subscription taken up if you have some down it would be best to let Mr Wood know Mr Kelly before hand to have it properly blisted

With Respects I am yours Truly
