

My Dear Sister Annie

I have a letter to write and scarcely know what it will be about but as it is quite necessary I should have one ready by Monday I suppose I must try and find something however trifling to say and as my last was to Mother I thought I would let this one be to you - I would send it to little Sammy if I thought he would read it and assure him his little heart how I wish I could have him always near me. I told Mother about the party we are to have in May and now I do not know what to tell you without it will be that I try to improve in my lessons, we have to study hard I assure you or at least I do for I can not get my lessons as easily as some girls, I actually have to beat it in my head and that being somewhat hard I find it somewhat a difficult task.

Give my love and kiss to the baby and write to me soon.

Affectionate little Sister Mollie.
