Dear Sir.

Mr Payne has informed the Committee that the Maryland Society purpose sending out their spring vessel to Cape Palmas by the middle of May and as your arrangements for that expedition may be near at hand I would take the liberty of thus communicating with you respecting the Missionaries designing at that time to leave for the Cape. You are aware that two intend going (one married) and the Com.e will be gratified if they can depend upon a passage for these individuals together with the freight of the articles sent out from the Stores and some additional Supplies – Also to learn as near as you can estimate the time when the expedition will probably be ready for sailing as it will be important for the Missionaries to continue their tour among our parishes as late as practicable consistent with their immediate preparations for departure.

We have as yet no accounts from our Mission by the Potomac presuming that Mr Buchanan may be bringing them on from Norfolk or has forwarded them by some private hand. Not having heard since Sept.r and then only a line speaking of further advices we are anxious to hear, and if you should not learn of any letter for us from Mr Thomson, we shall esteem it a favor to have from yourself (or from Mr Buchanan or otherwise if with you) all that may touch the interests
