Office of the American Society
for the promotion of Education in Africa
March 23rd 1837.

Revd. & Dear Sir.

Your interesting communication of the 21st inst. addressed to the Revd. Dr. Proudfit, making inquiries in regard to the "American Society for the promotion of Education in Africa" was handed to me a few minutes ago; and I hasten with great pleasure to answer it.

The queries contained in your letter are answered in the Circular of the Society, which accompanies this — You perceive the plan of our Society embraces Education in all its departments, from the elementary School to the College — and the field of our effort comprehends the Continent of Africa including of course all the American colonies. — Our first teachers must be sent from this country; white or coloured as we can obtain them of suitable qualification.
