Wicomico May 4th 1837.

Dear Sir:

Your letter came to Hand Some days Since, I should have answered long before this had I not been absent from Home part of the time.

Times, is about as they were when you were in our neighbourhood, as it regards the Colloured people, I have of no family that Come to any different Conclusion, they generally express fearful doubts that their Condition would not be bettered, we have no active persons in the great Cause of their emancipation, if the Cause could have the same zeal it one had in our County I am inclined to think its progress would advance rapidly. but from the general Sentiment now entertained among the Colloured people there seems to be a great aversion to go to that land that first gave them birth
