

Washington Sep 18th

Sir

Have I offended in any way. I have written you this will be the fourth time since I have heard from you.

I surely expected to have received a letter before this, in my last I spoke of coming down to your city, but if I do not hear from I do not know whether or not would be agreeable.

I would be much pleased if you would write me and mail your letter on Sunday then I would get it Monday morning.

Yours

Alber
