Claremont N.H. Sept 3d 1839

My dear Sir I send you a sheet of talk on Cape Palmas, whether or no it is exactly what you wanted I cannot say. Your request you will remember was general. & so is my report. From some hints I had in Balto. I have thought that some thing of a special nature would be desired. But if it should be. It will be less trouble to talk on any question than write now. I shall be in Balto soon as the 20th inst.

I found McGill at Hanover & rather found that he was there. & sent for him to meet me at Windsor which he did on the 29th ult. Dr Phelps introduced him to Dr Murphy & he is well received by the class. his situation is full agreeable and for a student. Dr Phelps gives the most favorable report of his progress & attention to his studies, & my friends in Windsor who are acquainted with him give him a high character for his good conduct when from his office. Every thing is right with regards to him. — How must the matter be arranged with regards to his expenses? He is out of money. I had to lend him fifteen dollars to get necessary furniture for his room at Hanover. Do write me by post & tell what arrangements must be made & I will see to them on I leave. His letters fees will become due ere long. I think that when the lectures are over he should by all means return & Dr Phelps & stay till the next lecture term. The distance between Hanover & Windsor is but 18 miles. No Physician of any character for practice resides at Hanover except in lecture term. Dr Murphy has other schools on hands. Specify all you wish me to do with regards to him.

Yours truly
Samuel Hall
