

Since I last wrote to you we
had another change in life. I'm
now in my Cousin's Store, clerking
for him, I have not however aban-
doned the idea of keeping School
again - but in this County they
are repairing & building School
houses at this time, I hardly
expect they will be opened before
the first of next year. I will keep
this situation until I get a
School. Its very dull here
at this time, I have a good deal
of time to study & read - which
I partly take advantage of -
I'm now reading the History of
Rome by Henry G. Liddell Esq.
Its one of the best I ever saw - only
one fault have I found - its too deep
for my limited knowledge - but that
will be a virtue - after I study more -
