Hanover N H Aug 11. 1838

Hon.d Sir

I should have rendered the annexed account at an earlier period; but waited in expectation of being able to acknowledge the receipt of the funds ~~much~~ requested in Mr Halls letter of 3.d ult. as I have not received nor heard of them I am led to conclude that circumstances must have prevented the remittance.

I have been in this place two weeks; left Windsor in debt, and was compelled to borrow money to defray my expenses to, and for furnishing a room this place. Last week the tickets for the lecture course were issued on the students paying their fee, or giving an endorse note for the amount. I was unable to do either, therefore must wait until I hear from you.

On the day of my departure from Windsor I received from the post office and forwarded to Mr Hall at Claremont a letter, which from the superscription & post mark I suppose came from you. Whether or not that letter contained contained any thing relating to funds I am unable to learn, as I suppose Mr Hall is before this time in Baltimore as he intended leaving N. Eng about the 29 ult. I have written to Mr Phelps to learn whether or not funds had been received, but with a neglect characteristic of his profession, he has allowed my letter to remain unanswered. Now I am compelled to apply to you, which perhaps I should have done at first, instead of depending altogether on the communication of Mr Hall.

I find myself well treated both by Professors and students the bar which last year appeared to be interposed between myself and the latter, has been removed. Now I am without the least scruple admitted into an association with all or any of them. By the pursuit of the same course of conduct that gained their respect I hope to ensure the continuance of it.

You will perhaps be surprised when informed that my determination is, to make a bold struggle for a degree you are aware that in my last I confined myself to a bare examination. I like not the plan of proceeding to
