

I am glad to know she is coming
to our city - will call to see
her, for her nanna's sake if for
nothing else - Is not Miss Hannie
coming also? I hope she is - I am
holding my self in readiness, to
trouble her with my presence, why are
not you coming to -

I thank you for your kind sympathy -
I will have a long time to wait, but
I hardly know how I could content
my self - if a very particular friend
of mine, had not promised to establish
herself next door to me and take
care of me during my single life
was she not kind and don't you
think I ought to love her very much
