

or Superintendent - I mentioned
in my last letter I would
telegraph you - were I suc-
cessful, if I failed I would
not, so that you might know.
I thought your Cousin & Sister
failed to visit the City, as
I had not heard of it, not
that I hear of all new arrivals
& but some particular ones
here of some times - I have
not seen Jimmie, since some
time early in February. I
have no time to return his
visits, so I expect he thinks
it a one sided affair - and
he has more agreeable and
congenial companions for his
age than I am. Young people
love young and lively company
and as I am neither - he
is excusable, yet I enjoy his
visits very much -
