Dear Sir

Some Time last year you or your Agent was in Cambridge and I informed you personally that only two Copys of the Colonization Journal have been taken out of the office since my appointment and Mr E. P. Le Compte former Post master informed me that he had written to you to the same effect a short Time before his resignation. Still they continue to come and some of them say that they were sent to them gratuitously the first year and that ~~they~~ will not take them under any other circumstances. will you do me the favour to write and inform me by the next mail whether they are sent gratuitously or not. No Copy was received this morning

P.S. The two Gentlemen who take them out are Doct A. C. Thompson and J. Burwood
