Windsor Vt July 8 1845

Honored Sir

In obedience to my instruction I transmit the amount of my expenditures for the first three months beginning at the first of April to the 1st July. It has been my desire to act consistant with the advices received but have deviated slightly through not aware that I had till I was making arrangements to forward this account but I shall guard against future errors.

Not knowing the exact way in making out the account I have a small Book upon which I enter every at that I receive to with the prices &c. I cannot say any thing respecting what arrangement that Dr Phelps will make for me at Monrovia as he does not know himself as yet. he will go there in a fortnight time, and on his return I shall be certain about it. he said to me it would be best for to make arrangement with Mr Hubbard for the room that I now occupy, so that he may not let it out and that I can have it on my return. I received the June number of Journal It is rather unchearing to hear of the hostilities of the natives but better be it with themselves than for it to be between them and the Colonists. I shall write again about the 25 July

I am Your most obet &c
