Winchester
14 July 1845

Dear Sir

I am having a map of Liberia made after the drawing of Roberts by Weber of your city to accompany the Census. And I am anxious to have your assistance in making it more perfect than it is, or can be made without more information. If you have before I come to Balt. the middle or last of next week, I wish you would take the map in Kennedy's Report & make such suggestions — draw such boundaries of the various settlements — as you think would be an advantage. We ought to have a good map — but we have not the materials to make. Roberts was instructed to make one showing all the land owned, & the settlements & all those things desirable for a map to show; and the meager one in Weber's hands was all he did. — It is piping hot — goodbye

Yours truly
W. McLain
