Cape Palmas, Oct 25. 1845

Dr James Hall,
Gen. Agt. M. C. S.

Dear Sir, Having a few leisure moments on this busy day (Saturday) I devote them to addressing the Board. I wrote you by bague Active Capt Sims Sept. 14th. Since then, the subject of most interest is the departure 16 days ago, of a party of colonists & Capemen for the Pah country. My last advices from them, eight days hence, were from near the falls of Faye (falls on the river) where native report says, a deputation of Pahs were to meet & conduct them to their country. This Pah country is the region noted on all maps of Africa as unexplored, and I anticipate great results from the opening of an intercourse.

The Pahs live between the Cavally & St Andrews river which flows through their country called by them Nego. The St Andrews ascend their river & trade with Pahs, living on its banks. This fact, I ascertained from a Pah man who has been to the Cape since our party left but will overtake & accompany them out. He was the first we seen at Cape Palmas, & was as much a curiosity to natives as colonists.

The Board will be pratified to learn that we are about to manufacture our own leather as well as soap. The hides are now in the tan vat. I want a set of currriers tools
