will be carried to the site of the Church & all other preparations, possible, made. I believe there is a disposition on all hands to have the Church well built as well as handsome, though without any unnecessary delay. I think you are right about having doors, shutters & casings made out here as the freight of these must be considerable. Of course, however, the window sash & that over the doors will be sent out by you.

I am pleased with all that I learn relative to Mr Webb and only regret that he is so slow to move. I shall heartily welcome him as partner of the Colony, as for the past 15 months I have been riding up every week (except when prevented by rain in a few instances) to fill the duties of that office.

Be kind enough to say to Mr Labatte to whom I have not time to write that I shall be very glad to receive the promised complete draft for the Church by the next Packet.

A box to Mr Appleby from a Mr Moore in Baltimore has been received, with which as Mr A. has returned permanently to the U. S. I know not what else to do but to send back to your care. Will you please have it delivered to him.

Mrs Payne desires to be remembered to you.

I remain Sir, yrs respectfully, J. Payne
