3rd. Tax on the estimated value of all real Estate, probable amount of which 35000 $ @ .90 per hundred dollars = 315.00

4th. Specific tax on uncultivated lands, probable number of acres 500 @ .75 = 375.00

5th. Direct Capitation tax on non-freeholders numbering 43 @ 2. 86.00

6th. Annual tax of 3 $ on all Coasting vessels 15.00

7th. The probable profits resulting from Commission, wholesale and retail business 1000.00

8th. The probable gains resulting from the trade in African pro= = ductions, allowing a man of steady business habits, with means, to procure in in one year 2700 Galls. = 9000 $, which will give clear gains 33⅓/100 = 3000.00

9th. Wholesale & Retail Licenses 200.00

7991.00

By the Estimates I have given, you will find that there is a balance of 5350 $ in favor of the probable amount can be raised in support of Government; and as I have not included in my Estimate of expenditures, the expense of boat building or repairs, the compensation of diplomatic officers on foreign business; the expenses incidental to the intercourse, treaties &c with the native tribes; the expense of printing; the expense of internal improvement; the buildings, offices &c; the Light house Keeper and Collector of Revenue; the appropriations for Invalids, sick and poor persons of the Community, and other liabilities incident to our govern= = ment, the amount, though small, will have to be distributed as proportionally as possible among these various contingencies.

You may think, Gentlemen, that the tax I have recommended is high in one or two instances, but I have suggested nothing without
