obtained, and Simpathy observed at the same
tim to thane and over thane whome one have
the power to act
Many things have been done by him, benefiting Americans to
this Community. Selling Lands, that is, Water Lots, which
have always been held in Reserved for hapes, the
the Lot accruing from them may go for the purpose of Edu-
cation in the Colony, taking Lands from those persons
Who have Regular Bona fide Deeds Given by former
Agents of the Colony, Deeds that have been regular executed
by using Every effort to monopolize all the trade into
his own hands, Monopolizing the public Store of its Regular
Quantity of Rice for the Benefit of the poor, the purchase
of Rice by him & for his Store have been great, & for the P.
Store, but little. The former Rules have been, that always
a Suitable Number Crops of Rice to Keep in Reserved
in case that any palaver should arise betweene us & the
Native Tribes.
Their is none wars with the Surrounding tribes neare
ans which wars could have been Brought to a final
adjustment by the Doctor your A. Agent had he
he acted as was Required by the people, of which
he, himself proposed to take measures to Settle but
have neglected so to do, which could have been done
before hostility began. But as it is the wars must
continue untill some is invested with authority
to do so. In my humble opinion if Supposed to Contin-

ue they will act much against the Interest of this
Colony, as they have always done our former Chief
Magistrat hope, always an eye to this. Speedy taking
measures to prevent the paths from been blockaded
so as not to prevent the trade of Rice Coming into the
Colony & we Really are depending on the Native for their
Rice, Which Dependency must continue for a long period
yet, before we will be able to Remove them by agricultural
pursuit. Now Sir, in my Opinion there barrans
difficulty will never be Removed from among us
till this Government is Rendered into our hand, which
must be done Shortly.
We have men among us that is Capable of doing
what is Right, and will act in accordance with the Mi-
nd and wishes of the people, and if we have such
men, why not we have them to Rule over us, & if they
did not do, as was Requested by the people we would no
precisely what to do with them, here without our taken
any Great trouble to acquaint the Board of the many
Grievances that we suffer under, those Lentaments
are general among our fellow citizen, And further
more, we are Rational Beings, if many of us are
not able to Reduced our Ideas to Writing & Send
them across the water, we are able to judge of the
Correct Administration of an individual, Who do or
may Rule over us, as governor.
While I pen these few Remarks to you. I have been with
