Monrovia, April 3d 1855.

Doctor James Hall,

Dear Friend,

You have written to me once or twice respecting a Liberian boy a Quest in Conn. wished to take & educate and return to Liberia, I have been on the lookout since the receipt of your letter for a boy that would in some degree answer the description you give of the one you would like to have sent, I have I think found one that will give satisfaction to all parties he is the son of the late J. B. Gibson his mother is also dead. He has been connected with my school & Mr Wilson for some five years. And so far as intellectual capacity is concerned give good satisfaction, and I believe is about 15 years old enough to appreciate the advantage of an education.

You will please inform me through your son whether this youth will answer if he should be the fortunate one I will send him by the Gen. Pierce.

Mr James, & Catherine join with me in kind regards to you, &c
