Dear Bro: Sep

Your letter came safely to hand and ought to have been answered sooner but I was from home attending the Philad. Conf. Since my return I have been engaged so that the answer has been delayed until the present. With regard to the proposition of your self & Dr. Hall I can only say that I have not determined definitely when I shall move or where, I have disposed of my property and shall leave here some time this year. I feel very much interested for the Colonization Cause and have used what influence I had in this section of County to get the Coloured people to migrate to their native land. I know that Liberia is the place and the only place for them, and I should feel in my proper element to have the Rev. E. S. of Md. Lecturing upon the propriety and the necessity of their going at once. I have no doubt I could secure for you a very large number by the Fall. But my dear brother I do not suppose the salary would permit me to leave my business and to engage in that. If it would I would engage in it at once with all my heart. There are a number of Col.d people on the
