Potatoes with an ample supply of sawfiles — &c &c.

In order to have this relief avail to its full extent we hope the M. C. Stevens will participate, by giving the Freight Bill free. It was designed for the Government of Liberia, but as by the last No of your Journal I see you are really going out in the Packet I hope they will be consigned to yourself & that in the application of them you will take personal supervision in consultation with President Benson. I wrote some weeks ago that the American Tract Society had made a Donation of excellent Books for your library. I will as your promised invitation to celebrate the launching of the Stevens has not come send on the Package by the Express.

I should like much to run to Baltimore & see you ere hence before your departure but the claims for money are so many & the responses so slow I must try and collect by a tour to Western N. York. I wish you every blessing of safety health & success! Does your daughter go with you? I have a sort of Memory that George said so, but I then had so little idea that you would really go as not to think of it. We are all well on the hill & shall often think & talk about you
