Monrovia, Aug. 11. 1869

To Dr James Hall MD
Baltimore

Dear Sir,

It is a long time since I had the pleasure of communicating with you - Nevertheless, I beg to assure you that I often hear you in remembrance. I have just now but time to speak on a subject which greatly interests me. I have an only son who for the last 2 years have been studying medicine - he is said to have made good improvement in the study, and his preceptor informs me that he is prepared to go to the U.S. to complete his medical education.

To yourself and Mr George Hall I propose
