will be leaving Newyork for Liberia. We could make the order to Newyork, but prefer the Baltimore market for what we want. I have estimated their cost will be about $409.00 — And you will find enclosed herewith, two drafts of $150.00 each = making $300.00, which with the $109. already sent you hands for the copper, amts to $409.00 which I hope will be sufficient. If not, the difference will be promptly remitted to you as soon as we are in receipt of it. I hope you will be able to get the things at such rates as to enable her to realize some profits from their sale here. It is her purpose, if successful in this venture, to continue her orders & remittances.

While I have heard nothing from you or your son of the misunderstanding & difficulties that seemed to exist between you & Thos McGill, yet I have learned somewhat of them, & must say that I sincerely regret that anything should have occurred to interrupt that friendship which seems to have existed between you & that family from the time I was a mere child at Cape Palmas. And now, after so many years of uninterrupted friendly intercourse & mutual esteem & confidence, to have become estranged & breaking off all intercourse between you is what I could not have expected. I deeply regret it. I judge from a paragraph or two in your letter
