as far as the facts & business
have been in my hands.

By reference to your account
for voyage Dublin gives the Ship
Credit for $1.55 8.96 — of this $335.00
is passage money, the balance is for
freight & drayage. I will thank
you to give me the amount
of each, so that I can make the
proper credit to the Ship — as
I had a book keeper now for a few
days helping me to bring up the
books to July 1, and he made it
through March. I am sorry
to trouble you — I do not
that it is important that I
should get the half-year well
settled up.

The Ship will have to make
a better voyage home this, than
she did the last time, or she
will bring us in debt at the
winding — Her credits now are

$202.50 & 8.96
