Rev Wm McLain

Dear Sir

Please find enclosed our account with the Ship Wilberforce for balance of voyage "D" on which there is a bal due us of $816 99/100. Also our for voyage E. up to date on which is due us $4240 99/100; including a note given by us for the summer work & provisions 12 months from Nov 19th 1858. These accounts we have taken to offset the commission for such funds entrusted to the Liberia Packet which amount at time leaving $175 because we were obliged to employ the second cabin with the Colonists over the steerage. We thought it would be a contribution of such thought being paid in advance to offset subsistence upon it ($350) We also expended for our month in advance on the ship for $500 which therefore expired Dec 1st, also the time of the packet's arrival at Sierra Leone.

We remain yours account with

Yours truly
