On making arrangements for the Glaucus since writing on the other page I think I shall be able to pay cash for it, the gross $ which I think amounting to $1457 -
I would dearly like, but likely Mr Dennis will wish to send 1 $100 to cash settlement where the Liberties are located, & return are limited. So if convenient I would like to be placed in funds again to cover drafts - having just paid some $2000 for a schooler, & a cargo to buy for here, we are not in position to advance as usual -

There must be some mistake about that Carter letter. I find on our files a letter from Joseph Carter of Newport Pa. apparently a coloured man, saying that he intends going out with Hall, also a mercantile house by the name of Dickerson - & man recommends Wm M Dickey of Oxford Pa with a view going down for this going; but may have sent the letter to Mr McLaughlin - It would be well to know more about the matter & find your not letter back of the letter from Carter & Dickey - Please give my truly notice of any thing else you may feel disposed to enlarge

Very truly Yours,

J Mercer Wallace
