OBITUARY

Died suddenly in this town on Tuesday the 1st. day of September, Inst. CURTES, fourth son of Kendall M. and Jannett JACOBS, aged 2 years 6 months and 1 day. One of the most lovely membe rs of our family circle has been suddenly taken from our embraces by an all-wise Providence.

Our dear little boy is gone—we shall go to him, he cannot come to us. K. M. J.

A CARD.

It having been reported that Mr. James M. Haines was clandestinely connected with me in the mercantile business, I do therefore most solemnly and religiously declare that such is not the fact, and that he hath not directly or indirectly any part or interest in the Store whatever. In testimony whereof I subscribe myself WILLIAM S. CORBIN.

☞ORDERS for every description of JOB PRINTING received at the Chronicle Office, and executed with neatness and despatch.

THE WHIG STANDARD.

A Journal of Politics and General News, for the People.

☞The Publisher of this weekly Journal, with a view of extending to all classes of their fellow citizens an opportunity of subscribing to a newspaper which zealously upholds their true interests, by a fearless advocacy of the Democratic Whig doctrine of PROTECTION TO HOME LABOR, and other great measures of Public Policy essential to the permanent prosperity of the Country and the People—which the present Administration have repudiated—have determined to submit to the public at large the conditions on which they will furnish the STANDARD for cash in advance. The following are the

TERMS.

For $1, one copy one year.
For $2, two copies one year.
For $3, three copies one year.
For $4, four copies one year.
For $5, six copies one year.
For $6, seven copies one year.
For $7, eight copies one year.
For $8, nine copies one year.
For $9, ten copies one year.
For $10, twelve copies one year.
For $11, thirteen copies one year.
For $12, fourteen copies one year.
For $13, fifteen copies one year.
For $14, sixteen copies one year.
For $15, eighteen copies one year.
For $20, twenty five copies one year.
For $25, thirty one copies one year

The above terms, the publishers believe, must commend their paper most favorably to the People. The masses will find the Standard a medium through which the most interesting of all sciences —POLITICAL ECONOMY—will be freely discussed, its columns being open to the essays of the honest and intelligent. In one sense, it will be a Party Paper, as it will advocate American in preference to British Interests; Home Industry in preference to Foreigh Industry, the Publishers believing, most thoroughly, in the Patriotic Doctrine of HENRY CLAY, that the Government should always afford Protection to our own People for the sake of protection. In a word, the Standard will be a true Democratic Paper, preferring the interests of American citizens to those of any other nation.

"I hereby certify, that several persons under Medical Treatment for INTERMITTENT FEVER, (or FEVER & AGUE) within my observation and direction have been cured by the use of "ROWAND'S IMPROVED TONIC MIXTURE, *after every preparation of Peruvian Bark, (Quinine) &c. & had been tried in vain !!*

EATHANIEL P. CAUSIN, M. D.,
Washington City, District Columbia.

THOUSANDS of like certificates have from time to time been published.

1,500,000 *cases of Fever & Ague! have been cured by* ROWAND'S 'IMPROVED' TONIC MIXTURE!!

WITHIN FIFTEEN YEARS!!!

However starting this statement may at first appear yet the FACT may be demonstrated by *the single rule of three*, for we estimate by reference to the "Manufactory Book" that FIVE HUNDRED THOUSAND BOTTLES have been made and distributed over the country during that period !!

Well, it is well known to the Agents, especially in the Western States; that *whole families of 5 or 6 persons* have been cured by *one single bottle!* In a vast majority of instances *one bottle* has cured 1, 2, 3 and 4 persons! The average here would give THREE cases to every bottle! amounting to the *astounding number* of 1,500,000 cases of this *"hated complaint!"* cured by this *inestimable remedy!!!!!*

Now, "common sense" dictates the propriety of *resorting at once to the old favorite well tried and sterling remedy*, and of avoiding all *vulgar and insignificant toxic mixtures*, which are mere counterfeit imitations of this original medicine.

The Agents are fully authorised to return the money paid whenever it chance s to fail!

SELLERS' CELEBRATED LIVER PILLLS, for the cure of the Liver Complaint,

The proprietor of the above medicine, aware of the many instances in which the afflicted have been imposed upon by quack remedies, proclaimed to be remedies for every disease yet hopes that, the Liver Pill will not be placed in that class until they are fairly tested.

It is expressly stated "that persons who use these Pills, and find, after following the given directions that they have not been benefited, shall have their money returned."

This is done that the public may see it is not the purpose of the proprietor to speculate upon their credulity, but to give at least an equivalent for their money.

In addition to the qualities already mentioned, they are highly recommended as Antibilious and Purgative Pills.

STEAM BRICK PRESS.

These works, situate on the South side of the Basin, immediately opposite Fells Point,

Are now in full operation, and a large quantity of BRICKS on hand of a superior quality. The waste ascertained to be much less than from any other *no washed* bricks—all of full size—fewer broken in handling—a wheelbarrow will hold the waste from 50,000.

Those who reside on the waters of the Chesapeake, may obtain their supplies at a cheap rate, by taking them from the wharf at the Kiln, thus saving the expense of cartage. Vessels may be loaded with despatch, by giving only a few hours notice. $5 50 per M at the Kiln wharf.

FIRE BRICKS.—Steam pressed Fire Bricks, now in high repute after six years trial in most of the foundaries in this City, in Mr. John Gamber's Furnace, Middletown, Pa. and several others,—have been used exclusively at the Munson Iron Works, Canton, and highly commended by Mr. Mowel, the agent. They are made of all required shapes at one price.

For the large Stourbridge size, $25 00 per M. $3 per hundred.

Size of common building brick, $20 00 per M. $2 50 per hundred.

SEMI FIRE BRICKS,—being two-thirds Fire Clay, suitable for Hot Air Chambers, setting Boilers and Kettles, and similar work not requiring a perfect Fire Brick—made of the size and finish of pressed fronts, and peculiarly suited for the backs and jams of fire places, as they will not burn out. $12.50 per M.

FRANCIS H. SMITH,
Office Jarvis' Building.

BALTIMORE, July, 1846.

The bricks made at the Steam Brick Press on the south side of the Basin, from the superior quality of the clay now used and the improvements recently introduced in the machine, are free from the defects which existed when the works were located near the Maryland Hospital.

When thoroughly burnt, the Steam Pressed Bricks possess all the essentials required for a solid and durable structure. The smoothness of the surfaces and the accuracy of the edges are advantages which they possess over bricks made by the ordinary process.

R. CARY LONG,
Architect.

BALTIMORE COPPER SMELTING AND MINING CO.

The Steam Pressed Bricks made by Francis H Smith, have been extensively used at these works in buildings, furnaces, wells, pavements, &c.—About one million have been thus used. They give satisfaction, and we shall continue to use them. When they are well burned, they are stronger and better for all purposes than any I have ever seen.

DAVID W. DAVIS, *Superintendent.*

The Commercial Buildings on Gay street, and the adjoining warehouses on Lombard street were built for me last year of Steam Pressed Bricks. The masons showed some prejudice against them at first but finally spoke highly in their favour. I am satisfied myself, not aware of any objection to them, and should I have occasion, would have no objection to use them in any future building. JOHNS HOPKINS.

July, 1846.

I have had an opportunity this year of laying several hundred thousand Steam Pressed Bricks at the Iron Works of Reese & Mills. I consider them equally as good as the hand made bricks. Being square and true, and regular in size, they make a smooth wall, and work up cleaner and with less waste than other bricks.

RUFUS K. CAIN.

I built this year, three houses in Henrietta street, using Steam Pressed Bricks. The estimates called for 95,000, but actually required but 82,100. This difference was owing to their being somewhat larger than other bricks, to their superior strength, so few being broken, and because every brick is of full size; no washed bricks. I never knew so little waste from so large a quantity. A common barrow held all the waste from the three houses. I consider them equal, if not superior to hand made bricks.

JOHN FITZPATRICK.

I have laid about a million of Mr. Smith's Steam Pressed Bricks, and prefer them to any that I ever worked. Last fall I built two houses for myself in McElderry street, of them, but a part of the East Gable, a four inch wall, I had to finish with hand made bricks. During a north east storm the water drove through these, but did not come through the Steam Bricks. This was seen by many persons., I knew that these bricks will stand the frost as well as any ever made and will turn the water better.

A. A. THOMPSON,
Bricklayer.

I have used over 300,000 of Mr. Smith's Steam Pressed Bricks, and have found them equally as good as any other, and far better for painting on than hand made bricks.

PETER CABRUTTERS,
Carpenter.

WASHINGTON, *March* 31st, 1841.

We hereby certify that the bricks made at the Patent Steam Brick Press, invented by Nathan Sawyer, and now in the possession of Smith & Proud, have been extensively, and for several years past almost exclusively used in the Navy Yard in this city that, during that time, they have been applied in the erection of one entire workshop, a pitch house, the putting up furnaces, repairs in different shops, the underpinning of a ship house, and for other purposes, and that, in every way they have given entire satisfaction to the departments in which they have been used.

JOSH H. SMOOT, *Master Joiner.*
JAMES TUCKER, *Master Blacksmith.*
JOHN DAVIS, of Abel, *Master Plumber*

I concur in the opinion contained in the above testimonials of the quality of Messrs. Smith and Proud's Bricks: I have purchased nearly all the Brick that have been used at the Yard since I have been Agent from them:

Orders No, 9,

HEAD QUARTERS,
12th Brigate 2d Division M. M.
Easton, July 24th, 1846.

FOR the purpose of making the necessary arrangements for the equipment and discipline of the Volunteer Companies which are now organized in the 12th Brigade, it is desirable to ascertain at the earliest period the precise number—location, and description of said companies. The commanding officers of Regiment and Battalions and the Captains who have been elected to command such companies, will therefore make an immediate report to the Brigadier General of every Volunteer Company in which it has been positively ascertained that there will be at least 32 men in uniform rank and file.

These reports will state as nearly as possible the whole number of men of which the companies will probably be composed—the kind of arms they will require—the place of Company meeting, and the time at which they will be ready for Inspection. The uniform of such oompanies will be required to consist of substantial materials, suitable for service at any season.

The certificates of Inspection will in all cases contain a description of the uniform; they will also state the Regiment to which the company is to be attached and the corps to which it belongs; whether Artillery, Cavalry, Infantry or Riflemen.

Those companies which have not adopted their arms are requested to select muskets, as there is an ample supply of that description of arms.

The officers of the regular Militia are hereby ordered to require the performance of militia duty from every citizen who may be subject to the same and who shall not have equipped himself fully as a member of a volunteer company on or before the first day of September next

THAT SELLERS VERMIFUGE is the Best in Use! Here is the proof.

LICKING STATION, Ky., Dec. 17th 1845.

Mr R E Sellers—I have the pleasure to inform you that I have used in my practice your celebrated Vermifuge with the most happy results. I have formerly used Fahnestock's but being persuaded to try yours I have found it far superior in every respect, and can say without the fear of contradiction, that your Vermifuge possesses more virtue than any I ever used, and most cordially recommend it to the attention of the public. I will state a case where I gave one vial of your vermifuge: My brother's child was pining and wasting to a mere skeleton; in 30 hours after I gave the Vermifuge, the enormous quantity of upwards of six hundred worms were passed. The child that was given up as lost is now well and as hearty as any in the neighborhood.

DR WISTAR'S BALSAM OF WILD CHERRY

This is a chemical extract of Wild Cherry and Tar Every body knows that Wild Cherry possesses important medicinal properties; and Tar Water has always been administered in Consumption, and Lung affections generally, by our oldest and safest physicians.

Various remedies, it is true, have been offered and puffed into notice for the cure of diseases of the lungs, and some have been discovered, it is admitted by physicians, and all we have witnessed its effects, that none has proved as successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positive cure. It has cured Asthma in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine.

This Balsam is made from materials which Nature has placed in all northern latitudes, as an antidote for diseases caused by cold climates.

"Nature is but the name for an Effect
Whose cause is God."

Let us not neglect her plainest dictates.
