Judge R. B. Kennedy

Dear Sir

Your favor to my father inclosing the 25 dollars in this day received by me, he not being in town. I regret not being able to give you any further information than you now have that the vessel sailed for the people in the Mid. States. We doubt not we shall learn all particulars on her return in the fall. I note your remark that "it was not intended that the legal of the lady should have any thing to do with the distribution of the funds" but that you "had appointed the Rev. Mr Pierce to assure them of the location &c." Had we known this at the time it would have been as easy to arrange
