Mr. M. Sheppard

Fredrick Town. Nov. 25th 1832

Dear Sir.

I beg the liberty of introducing to your acquaintance Mr. Chester Coleman of this neighbourhood who has a young Col.d Woman which he is desirous to send under the protection of Calvert Barber and his wife to Liberia. Mr. Coleman since this Expedition has been suggested has been unceasingly active among our free Col.d people in his neighbourhood to remove their prejudices & Excite their feeling to the true Interests which awaited them in Liberia, and much Good has been done and will result from his exertions to the Cause of Colonization....

Some sudden Bilious attack one Friday last I have been much indisposed since, which will plead my Excuses for not seeing you to morrow but as, John Jackson has told us that the Vessell will not sail before Sunday next I may get down by Middle of the Week

I am with Sentiments of Esteem Yours

Respectfully

Dan.l Hughes
