Colonization Rooms 2 Feby 1837.

To the Board of Managers
of the Maryland State Colonization Society
Gentlemen

Since the last meeting of the Board I have addressed a letter to each of the State Colonization Managers, enclosing a copy of the resolutions which were adopted by the Board in relation to the purchase of a vessel for the use of the Society, requesting an early answer, and have no doubt that they will do so with as little delay as possible.

Since the last meeting, also, the Committee of arrangement have endeavoured to obtain a suitable room for holding the anniversary of the Society, and to procure the assistance of gentlemen of popular talents, to address the meeting. I am prepared to state, in behalf of the committee, that there is no difficulty in procuring a room, and the aid of a good choir of singers; but thus far no success has attended their effort to engage speakers. It will, of course, remain for the Board now to decide what further measures shall be adopted in reference to holding the meeting.

The receipts into the Treasury during the month of January have amounted to $776.69/100 of which 556.05/100 were from the Treasury of the State.
